

Anthropological Literature is a bibliographic index to articles in journals and edited works received by the Tozzer Library, the anthropology library of Harvard University. The e-resource contains more than **570,000** records dating from the early 19th century to the present. Titles indexed: approximately **4370** journals, monographs and monographic series. About **10,000** new records are added each year in quarterly updates. For contact information, please see the **Anthropological Literature** home page (<http://hcl.harvard.edu/libraries/tozzer/anthrolit.html>).

Journals and monographic series currently indexed in the **Anthropological Literature** e-resource

Current: August 20, 2009

The following list contains journals that in the past may have been indexed as monographic series, for example, *Quaternary Science Reviews*, *Quaternaria Nova* and *Plains Anthropologist*. In the e-resource, either the journal title or the title of the individual monograph may appear in a search by title. The user should try both titles.

The following list is for 722 **current** titles only. It does not include the names of numerous journals that have ceased publication over the past two hundred years, or for which indexing has ceased. The e-resource does include the articles from journals and series that have ceased publication, and the older articles of some journals not indexed currently.

(Se) Denotes a series, usually indexed selectively
